Fully automatic
grinding
machine for
saw chains**

Grindomatic V12

Grindomatic V12 for Professionals:

- Saves time – fully automatic
- Gives you an extremely sharp edge
- Fits most chains used today
- Avoids blue teeth! Grinds up to 4mm without burning teeth, perfect for stone damaged harvester chains
- Stops automatically when chain is perfectly sharp
- Grinding angle from 0-35 degrees, makes it also suitable for ripping chains and depth gauge grinding
- Compact design: 16x14x14 in, (12.5kg, 28lbs.)
- Operates on 12 Volts
- Increases profitability in the harvesting work
- Prevents value loss as it reduce splits in the butt log
- Short pay back
- Contributes to a better working environment
- High industrial quality, made in Sweden
- You really get your moneys worth – compare us with our competitors and you will see.

Grindomatic V12 (patent pending) sharpens all the chain's teeth without any need of manual adjustments. This picture shows the alternating grinding head.

Easy change of grinding wheel for depth gauge grinding.
